He has an extensive background in native teachings, Hawaiian healing, yoga, dream-work, movement, meditation and group facilitation. He's traveled world-wide, synthesizing and sharing these teachings. "These ancient practices reawaken our connection to our wholeness and our divinity. This awakening process allows us to experience our unique self, not as a separate individual, but as a connected part of the whole. It is a tremendous gift to witness individuals awakening to themselves on a deep soul level."
